Yes

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Maintain public website displaying entire selection of handsets and devices including HAC rating. Customer flyer available with listing of available handsets which includes features and rating of phones. Sales staff is trained to assist customers in identifying HAC compliant handsets and devices. Handset packaging inserts and user manuals also provide information. HAC M4 T4 rating handsets are available for testing.

Methodology for Functionality Levels

Offer HAC compliant handsets and devices in levels low medium and high end. At least one HAC compliant handset device with features and services typical of its price category can be found that meets each customers price range.
